⚠ WARNING

Children have died from furniture tipover.

- ALWAYS secure this furniture with an anchor device.
- NEVER allow children to stand, climb or hang on drawers, doors or shelves.
- Never open more than one drawer at a time.
- Place heavy items down low.

NEVER put a TV on this furniture.

Serious injury or death can be caused by toppling furniture. Attach this unit to the wall using the safety bracket anchor device provided. Fix bracket to the middle of the unit with 16mm screw (provided) and use a suitable wall fixing (not supplied) to fix L-bracket to wall.

What you will need

Carpet Floors

When placing the cabinet on carpet, the carpet can prevent the bottom drawers or doors from opening. To fix this, install the optional foot mounts.

4x

Foot Mounts

WARNING!
Do not screw foot mounts to the base. Fix to cabinet sides as shown.

STEP 12

Place backing panel on to the back of the cabinet.

STEP 13

75x

Note – Start by nailing opposite diagonal corners. Space nails every 10cm. Additional spare nails are provided.

STEP 14

Stand the cabinet upright.

Orientation

Note – Correct orientation is vital for proper hole spacing when installing drawer runners and door hinges.

TOP

Inside the cabinet, the first hole is located about 38mm from the top.

WARNING

The assembled cabinet will be heavy.

For your safety, a minimum of two people is recommended to lift the cabinet upright. Bend your knees and lift with your legs - not your back!

CABINET CARE INSTRUCTIONS

Everyday care for your cabinets:

Liquid spills should be cleaned up as they occur. Liquids and other damp objects, i.e. towels, will eventually cause permanent damage should they be left unattended.

Everyday clean-up of cabinets can be done with a damp cloth and a dry cloth. Ensure you use a clean cloth every time when wiping down your cabinets, as foreign dirt, grease, and oils may inadvertently be transferred to the surface.

Cleaning melamine products:

Oils, grease, and other soils that do not respond to water can be removed with a solution of mild soap and water. The surface should be rinsed immediately with a clean, damp cloth and dried thoroughly with a soft cloth to avoid streaking or moisture seeping into the seams around the edges.

PLEASE NOTE: Never use abrasive cleaners, ammonia, bleaching agents, scouring pads or powdered cleaners on any type of cabinetry.

Cleaning cabinet hardware:

Brass and Silver cleaners are not recommended for cleaning handles. Some of these cleaning solutions contain harsh chemicals that may damage the finish on your handles.

Wash your hardware with a solution of warm water and a small amount of mild dish detergent. Dry your hardware and areas around the cleaned area immediately.

Hinges can be cleaned with a dry cloth or cotton-tipped swab.
